i. The NAPA Interim Report was received by the program office on schedule. The interim report was sent on 21 April to The Honorable Louis Stokes, Chairman of the House Permanent Select Committee on Intelligence, through the DCI. A copy of the document has also been forwarded to The Honorable David L. Boren, Chairman, Senate Select Committee on Intelligence. ?

Judge Webster wrote The Honorable Stokes and Boren a letter dated 29 April 1988 noting: "The Interim Report describes NAPA's progress thus far. To date, much of the effort has consisted of organizational work, the establishment of a baseline understanding of the intelligence personnel systems being studied, and the identification of specific issues that will receive close scrutiny in the coming months. An Intelligence Community Steering group has worked closely with the NAPA study staff over the last few months to provide assistance and information, and senior Community managers have furnished guidance on personnel policy issues. I am confident that the NAPA team has acquired a good understanding of the Community and is moving to address the problems that concern us."
